Care, reimagined.

MantraCare is a global mental health and wellbeing platform built on clinical rigor, technology, and human warmth. Our brand exists to make support feel approachable, modern, and trustworthy — from the first interaction to long-term care.

Mission

To make quality mental healthcare accessible to everyone, everywhere.

Vision

A world where seeking support is as natural as seeking any other form of care.

Brand Pillars

Human · empathetic, never clinical-cold.

Clear · plain language over jargon.

Modern · digital-first, considered, premium.

Trustworthy · evidence-based, safe, secure.

The MantraCare mark

Our logo combines a circular wellbeing symbol with the wordmark set in Plus Jakarta Sans. Always preserve clear space equal to the height of the “M” on all sides.

Minimum sizes

Digital: 24 px height · Print: 12 mm height

Do

- Use the primary mark on light backgrounds.
- Use the monochrome white version on imagery or brand color fills.
- Maintain clear space and minimum size at all times.

Don't

- Don't recolor the logo outside of the approved palette.
- Don't stretch, rotate, or apply effects (shadows, outlines, gradients).
- Don't place the logo on busy imagery without a scrim.

A calm, clinical, confident palette

Accessibility

All foreground/background combinations in product UI must meet WCAG 2.2 AA contrast (4.5:1 for body, 3:1 for large text).

Plus Jakarta Sans + Inter

Headings — Plus Jakarta Sans, weights 600–800.

Body — Inter, weights 400–500. Use generous line-height (1.5+) for long-form reading.

Display · 48 / 56

Heading · 32 / 40

Title · 22 / 30

Body · 16 / 24 — Crafted for clarity and calm. Mental health information should feel readable, never overwhelming.

Caption · 12 / 18

Warm, clear, professional

Do	Don't
"We're here whenever you're ready."	"Submit your request and await response."
"Talk to a therapist who understands you."	"Initiate consultation with practitioner."
"Small steps count."	"Begin treatment protocol immediately."

Tagline & core messages

Tagline

Care that meets you where you are.

Short description (≤140 chars)

MantraCare is a global mental health platform — therapy, coaching, and wellbeing built around you.

Long description

MantraCare partners with employers, providers, and individuals to deliver evidence-based mental healthcare at scale. We combine licensed clinicians, modern tooling, and human-centered design to make care feel less like a system and more like a conversation.

Real moments, soft light

Our imagery captures authentic moments of connection, calm, and care. Avoid staged stock photography, clinical sterility, or imagery that stigmatizes mental health.

Principles

- Natural light, warm tones, shallow depth of field.
- Diverse representation across age, ethnicity, ability, and identity.
- Candid emotion over posed perfection.
- Never depict distress in a way that feels exploitative.

Lucide, refined

We use the Lucide icon set as our system baseline — 24px grid, 1.5px stroke, rounded joins. Icons should feel light, friendly, and consistent with our typographic weight.

A modern healthcare interface

Components follow an 8-pt spacing grid, 12px corner radius, and a soft elevation system. Primary actions use Mantra Blue; secondary actions use Care Teal or neutral surfaces.

Radius · 12px · Spacing · 8pt grid · Elevation · 3 tiers

Consistent presence

Profile imagery uses the icon mark on Mantra Blue. Posts use the brand gradient as accents, never as full backgrounds for text. Always include accessible alt text.

From product to print

The MantraCare system scales across web, mobile, email, presentations, partner co-branding, employee benefits collateral, and clinical printables.
